STATE CHAIN OF COMMAND

Governor

Executive Office of Public Safety and Security

Director Massachusetts Emergency Management Agency

Massachusetts National Guard

The Adjutant General
Foster a **Whole of Community** Approach to Emergency Management Nationally;

Build the Nation's Capacity to Stabilize and Recover From a Catastrophic Event;

Build Unity of Effort and Common Strategic Understanding Among the Emergency Management Team; and

Enhance FEMA's Ability to Learn and Innovate as an Organization

• ESF Focused

• Resource Provider and Coordinator

• NIMS Focus

EMAC Process  IEMAC Process  MOU
TOTAL STATE EFFORT
FEMA PLANNING FACTORS

• The changing role of the individual
  • Climate change
  • The age of critical infrastructure
    • Evolving terrorist threats
    • Global interdependencies
      • Government budgets
    • Technical innovation and dependency
      • Universal access to and use of information
    • U.S. demographic shifts.

FEMA Strategic Plan Fiscal Years 2011-2014
Population Trends

50 Percent of the world gross domestic product is produced on just 1.5 percent of the world’s land.

Worldwide City populations are expected to double by 2030.

70 Percent of generated energy globally is consumed in cities.

The U.S. Census Bureau projects the U.S. population will grow 42% between 2010 and 2050.

There will be a significant increase in the elderly population.

Continued economic and population growth in metropolitan areas will contribute to greater urban sprawl and growth of “megaregions.” along coastal regions.

MANG
Request all support through MEMA but feel free to informally reach out if you have questions about our capabilities.

Frame requests in a manner that describes what you need to accomplish (task/purpose) vs. trying to guess what equipment/people you require.

Be aware of our response time limitations (6-12 hours) for most support.

Don’t write MANG capabilities into your local EM plans – check with us regarding capabilities.
ALWAYS THERE ... ALWAYS READY
